[§] MBN Research Center, Frankfurt, Germany

This is a sample abstract for ISACC 2017. Its overall layout is similar to that used for the previous ISACC 2015 meeting [1]. Preparation instructions are given below.

1. Abstracts should be written in English. The abstract should fit on one Letter page (215.9 × 279.4 mm) without the page number. The abstract should be sent in PDF and editable (DOCX or TEX) format through the official e-mail conference. Files larger than 5 Mb will be rejected.

2. In case that you use figures on your text, you need send the image on format JPG with a minimal width size of 8 cm.

3. All text and figures must fit within top, bottom and side margins of 2 cm. Use 11 pt Roman font (LaTeX default) or a similar font such as Times New Roman throughout the abstract. This and other font sizes, as used in the Word template, are listed in Table 1.

Table 1. Font sizes to be used in the abstract.

	Title	Synopsis	Body	Refs.
Size	14 pt	10 pt	11 pt	10 pt

4. The title should be typed in 14 pt boldface font and centered. If necessary, use a second line, single-spaced just below the first.

5. Leave 18 pt before the names of the authors (11 pt bold) and again before the single-spaced affiliations and addresses (10 pt).

6. After 18 pt vertical spacing, the body text is typed in two-column format with 0.75 cm column separation. The text should be single-spaced and the first line of each paragraph should be indented by 3 spaces.

7. Figures will be shown in color in electronic versions of the abstract. Give each figure a separate

caption (10 pt) and, like a table caption, it should be concise (see figure 1). If you choose to submit color figures remember that most printouts from the web will be in black and white. It is your responsibility to ensure that the figures are easy to read and understand even in grayscale mode. When including figures, pay close attention to the file sizes, to avoid producing an oversized final PDF abstract file.

Figure 1. ISACC 2017 logo

8. References in the text should be given by numbers in square brackets [1] (“Vancouver system”). The list of references in 10 pt font follows the last line of the text with one extra line inserted.
